**PETITION UNDER 37 C.F.R. § 1.181  
TO REQUEST WITHDRAWAL OF FINAL OFFICE ACTION**

MS AF  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Applicant hereby petitions for withdrawal of finality of the Office Action of June 1, 2007.

Applicant, seeking review of the prematureness of the final rejection within the Final Office Action, respectfully requests reconsideration of the finality of the Office Action for the reasons set forth hereinbelow. See M.P.E.P. §706.07(c).

This is a petitionable issue because Applicant seeks review of the prematureness of the final rejection within that Office Action.

The “second or any subsequent actions on the merits shall be final, except where the examiner introduces a new ground of rejection that is neither necessitated by applicant's amendment of the claims nor based on information submitted in an information disclosure statement” (emphasis added). M.P.E.P. §706.07(a).

### **Argument**

Paragraph 6 of the **non-final Office Action** mailed on **December 14, 2006** includes a rejection of claims 3-4 under 35 U.S.C. §103 as allegedly being unpatentable over International Publication No. WO 02/25842 to Dowling et al. (Dowling).

Within the Amendment in Response to Non-Final Office Action filed on March 2, 2007, **claims 3 and 4** have been rewritten **only to place that claim into independent form**. Page 9 of the Amendment includes advisories highlighting that **claims 3 and 4** have been rewritten to place those claims into independent form.

Thus, **claims 3 and 4** found within the Amendment of March 2, 2007 **were present prior to** the mailing on December 14, 2006 of the non-final Office Action.

In response to the Amendment filed on March 2, 2007, pages 2-3 of the **Final Office Action of June 1, 2007** **admit** that Dowling **does not** expressly disclose a device *wherein the second light source unit has at least two light sources which intermittently emit light beams of the same wavelength, which are independent of each other*, as recited within **claim 3**.

Furthermore, pages 2-3 of the **Final Office Action of June 1, 2007** **admit** that Dowling **does not** expressly disclose a device *wherein the second light source unit has at least two light sources which intermittently emit light beams of different wavelengths, which are independent of each other*, as recited within **claim 4**.

Nevertheless, paragraphs 3 and 4 of the **Final Office Action of June 1, 2007** include a **new ground of rejection** of **claims 3 and 4** under 35 U.S.C. §103 as allegedly being unpatentable over Dowling and in view of a **new reference**, U.S. Patent No. 6,868,236 to Wiltsey et al. (Wiltsey), and yet **another new reference**, U.S. Patent No. 6,522,437 to Presley et al. (Presley).

Paragraph 13 of the Final Office Action **admits** that the rejections of claims 3 and 4 found within paragraphs 3 and 4 of the Final Office Action are **new grounds of rejection**.

Thus, the new rejection of claims 3 and 4 made within the Final Office Action are new grounds of rejection that are neither necessitated by applicant's amendment of claims 3 and 4 nor based on information submitted in an information disclosure statement.

Accordingly, the finality of the rejection of claims 3-4 made within the Final Office Action is premature at least for this reason.

"If, on request by applicant for reconsideration, the primary examiner finds the final rejection to have been premature, he or she should withdraw the finality of the rejection." M.P.E.P. §706.07(d).

Accordingly, Applicant hereby petitions the Commissioner under 37 C.F.R. §1.181 to direct the examiner to withdraw the finality of the Office Action mailed in the above-identified application on June 1, 2007.

No fee is believed required to support this petition. See 37 C.F.R. §1.181.
